Group Member Selection

Hello everyone, I tried to reach out to codepath last week to reassign group members in groups that had issues, but they weren't able to meet. To address this please fill out the form below. I will be meeting with codepath on Monday or Tuesday to fix this issue so please get this done right away.

Each member must upload this document on canvas. If you do not know anyone and wish to stay in the group that was assign to you by codepath originally you must still fill out this document and upload it using canvas.

Please fill out the information below and upload it by Tuesday, November 1, 2022 midnight.

Please note, you can have 2 to 5 members in your group. There will be no single member group. If you know no one and you cannot communicate with anyone I will put people that are just by themselves into a group. Please use canvases discussion board to locate and communicate with people regarding this if needed, thanks.

Class:		COP4655RVC or COP4655RTEA
Group Name:		You can use your application name for this if have figure this out or blank otherwise
Member 1 Name:	Aj Cardoza	
Member 2 Name:	Max Karey	
Member 3 Name:	Juan Sanchez	
Member 4 Name:	Seja Nathu-Hari	
Member 5 Name:	Ian Palencia
